

Manipulating Collections using Loops

Print to PDF ►

Let us understand how to manipulate collections using loops. We will be performing quite a lot of tasks to get enough programming practice.

- Reading files into collections
- Overview of Standard Transformations
- Row level transformations
- Getting unique elements
- Filtering Data
- Preparing Data Sets
- Quick Recap of Dict Operations
- Performing Total Aggregations
- Performing Grouped Aggregations
- Joining Data Sets
- Limitations of using Loops
- Exercises - Manipulating Collections
